

Introduction to Java

JOIN COURSE NOW

What is Java?

- Java is a high-level, object-oriented, and platform-independent programming language
- Developed by Sun Microsystems in 1995 (now owned by Oracle)

Why Learn Java?

- I Love Java
- To make an android application
- To make a game
- To make a web application
- To make a desktop application and more

How to Install Java?

- Install JDK (<https://www.oracle.com/id/java/technologies/downloads/>)
- Add java bin folder to environment variables path
- Install IDE: VS Code (Recommended), NetBeans, IntelliJ IDEA

Simple Java Code Example

```
1  public class HelloWorld {  
2      public static void main(String[] args) {  
3          System.out.println("Hello World!");  
4      }  
5  }
```

THANKS!
